[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 7.

EASTERN STATES.

Explosion at Montgomery, Alabama.

MONTGOMERY, Nov. 6.—At a radical meeting to-night, combustibles used on an anvil, exploded killing two men and wounding several seriously.

Georgia Affairs.

ATLANTA, Nov. 6.—Both branches of the Legislature have adopted the following resolutions:

Resolved, That Rufus B. Bullock, late Governor of this State, who resigned his office and left the State under circumstances creating grave suspicion that he is guilty of high crimes or misdemeanors, in his letter of the 23d October, addressed to political friends among the people of Georgia, stating that the majority of the House of Representatives had pledged themselves to vote for articles of impeachment against him without investigation; and that the Senate had determined to unseat a sufficient number of Republican Senators to secure his conviction without regard to truth or validity of charges, has defamed the General Assembly by charges which are untrue, and that the statement in the same letter to the effect that the people of Georgia recently denounced or ignored the Constitution of the United States, is false and defamatory to the people of this State. On the contrary, we assert that the people of this State do now as they did six months ago, neither entertain hostility toward the United States, nor deny any person within the limits of the State equal protection of its laws.

Counterfeiters Arrested.

ST. LOUIS, Nov. 6.—A counterfeiters' den, a few miles from Kansas City, was broken up yesterday. Joe Rielly and Tom Ballard were arrested. Harry Cole and Josiah Myer, the latter the leader of the gang, were captured, but escaped. A large quantity of tools, presses, dies, etc., were captured, including a $1,000 United States note and a lot of fibre paper, such as is used by the Government.

New York News.

NEW YORK, Nov. 6.—A number of prominent gentlemen, including Charles O'Conor, John E. Develin, and Aswald Ottendorfer, sent a communication to the Emigration Society, directing attention to the report that the emigrants on Ward's Island were falsely registered, and asking that measures be taken to prevent these men from voting.

Cards are published by O'Donovan Rossa and Sigel, one soliciting support for the other. Rossa states that Sigel promises to give one-third of the patronage of his office to Americans, one third to the Irish, and one third to the Germans. He calls upon citizens to keep a look out for the count. If he gets a fair show he thinks he can defeat Tweed.

One of the rumors concerning the election frauds is that Tammany ruffians intend having many names on the registry list voted early in the day to the exclusion of legitimate voters. Where a man votes on a false name, there seems to be no remedy. An order for the release of one of the prisoners in Ludlow street jail, signed by Judge Barnard, has not been complied with by the Sheriff, who has taken legal advice. All the State U. S. Courts adjourned till to-morrow.

Boston Dispatches.

BOSTON, Nov. 6.—News of the disaster to the whaling fleet advanced whale oil from sixty cents to a dollar per gallon. Boston insurance offices had little if any risks. The New Bedford offices lose a million.

Martin Vankleek, 17 years old, has been arrested on suspicion of stealing six thousand dollars' worth of jewelry from his father in Brooklyn.

WASHINGTON CITY.

About the Pension Office.

NEW YORK, Nov. 6.—A Washington dispatch to the *Herald* says the action of the chief clerk of the pension office in the Interior Department will be investigated by Congress. One of the schemes in which he was concerned was loaning the Seaton Hotel, which was secured for three years at $10,000 for pension office purposes, and on which it is alleged a large per cent. was paid to a committee, of which he (Johns) was a member.

Official Appointments.

WASHINGTON, Nov. 6.—The President has appointed Wm. Prescott Smith and John W. Davis, commissioners from Maryland for the centennial celebration of American independence.

Major J. B. Wheeler, of the Engineer Corps, has resigned.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 7.—The resignation of J. B. E. Cavalier, as President of the Stock Exchange, tendered on account of his suspension through the failure of John Sime & Co., was refused acceptance by the Board and he will continue as usual. His liabilities are over $60,000.

The hat store of J. Landon, 820 Kearny street, was burned out between 10 and 11 o'clock last night. Loss, $2,000; fully insured.

The Central Pacific Railroad sent off sixty of the officers of the wrecked whalers this morning, having reduced the fare to a nominal rate to enable them to reach their homes at the East.

C. H. Bradford, I. P. Rankin and J. Birch are appointed a committee on behalf of creditors to investigate the condition of John Sime & Co.'s books. The liabilities are stated at $247,000 in round numbers. The nominal assets are $186,633, including 2,350 shares of the Exchequer Mining Company's stock. The books appear to have been kept correctly. The cash in the vaults tallies exactly with the cashier's report.

The South Carolina Ku Klux.

A Washington dispatch of October 31st gives this intelligence:

Attorney General Ackerman has just returned from the martial law district in South Carolina, and has a detailed report of his observations and has expressed his opinion with regard to the existence of Ku Klux in that State. He says that he has ascertained that it does exist under such names as the Invisible Empire of the South and the White Brotherhood, and a majority of the white men of that section were in its membership and under its control; that its object embodied in its oath were the defence of the Constitution as it was, resistance to Radical invasions, and protection of widows and orphans, and that the penalty of treachery provided by said oath is death. He further claims that 10 murders have been committed, 20 colored school houses burned, and 500 minor outrages committed in York county by the Ku Klux in the last year; and that between 100 and 200 had recently fled the country to escape punishment. The Attorney General thinks most of these outrages were committed last March. There have not been any recently. Many who belonged to the organization have surrendered themselves and confessed, on the ground, he supposes, of receiving amnesty. When he left Yorkville 90 men had been arrested by a similar process and confined in York jail. He doubts as to whether the prisoners would be granted a hearing or not. He claims that the Department of Justice has a right under the President's proclamation and Ku Klux law, to hold them until the United States Courts should assemble on the 27th of November. This is the official Administration view of the situation.

At a Cabinet meeting held October 31st, it was decided to continue the prosecutions in Utah. If necessary troops will be sent to that Territory. It is known that some Federal officers have asked for troops to aid in making arrests, but this is considered to be inexpedient, unless there is resistance of the law to make an additional force necessary.

The Chairman of the Republican State Committee of Massachusetts has been authorized to address the National Republican Committee, urging them to make Boston the place of holding the National Convention.

OREGON.

Jacksonville has voted to appropriate $10,000 for water works.

The *Mountaineer* has seen a lot of apples 16 of which made a bushel.

A further sum of $375 has been forwarded from Salem for the Wisconsin and Michigan sufferers.

Dr. North, of Empire City, Coos county, informs the Roseburg *Plaindealer* that he has purchased the material and will issue a paper at Empire City in a short time.

James L. Lounden, familiarly known as "Reub. Rinus," died at Jacksonville last week. He came to that place in 1851; served in the Mexican war, was at Buena Vista and other battles, and in 1868 was a member of the Oregon Legislature.

From the *Statesman*: A communication received at the office of the Superintendent of Indian Affairs states that the employees at the Umatilla Agency raised $160 for the benefit of the Wisconsin sufferers. Howlise-Wampo, chief of the Cayuses, gave $20, and Winap Snoot, chief of the Umatillas, gave $4.

A Jacksonville paper learns that a man by the name of Hawkins has discovered new diggings on Rogue river, below the mouth of Applegate. Mr. Hawkins has been making from $20 to $40 per day with a rocker, and has sold his claim for $2,000. The ground is being rapidly located above and below him, and there is a big gold excitement in that section.

From the Jacksonville *Sentinel*: Messrs. Howard & Turner, and their party, who have been surveying east of the mountains, returned this week. They surveyed in Langel's, Bernz' Swan Lake and Alkali valleys, six townships, or nearly 140,000 acres. Some of this was swamp or overflowed land, and all of it first rate grazing land. Many of the settlers are filing homestead claims in advance of the returns, to protect themselves against swamp land sharks.

The Yale College Scientific Party are now at Canyon City making observations. They were joined at that place by Rev. Thomas Condon. They are all graduates of Yale, and their names are as follows: Professor O. C. Marsh, Yale College; O. Harger, New Haven; J. J. Dubois, New Haven; H. D. Zeigler, Philadelphia; G. M. Keasbey, Newark, New Jersey; G. G. Lobdell, Jr., Wilmington, Del.; A. B. Mason, Chicago; Fred. Mead, Jr., New York; J. F. Page, Philadelphia; T. F. Peck, New York.

The *Plaindealer* says that on Tuesday morning October 31st, a man came to town from Oak Grove station, twelve miles away, and procured a warrant for three men who, he said, had stolen some horses from him the night before. Deputy Sheriff Kent, in company with Hill, started in pursuit and arrested one at Oakland, and the other two at Yoncalla. They were brought back, and for want of sufficient evidence were discharged. Two of the party, however, were arrested again for stealing blankets, and fined twenty dollars in default of which they were sent to jail.

THE TERRITORIES.

The Nez Perce Indians were to hold an election at Lapwai last Monday to select a head chief for the tribe.

The steamboat *Forty Nine* is running again on the Columbia river above Colville. She is carrying supplies for the Canadian Pacific Railroad survey.

One day, not long since, Mr. Proctor of Lewiston assayed twelve hundred ounces of gold dust. This is pretty good for one day, and shows that the northern mines are not yet giving out.

The Lewiston *Journal* learns that about six dollars per day has been averaged at the Falcons mines during the past season; that thirteen men have been constantly employed. By the construction of five reservoirs, which discharge the water into each other, the miners have had sufficient water for purposes of mining.

The Lewiston *Journal* of the 28th ult. has this: P. G. Eastwick, Engineer for the Northern Pacific Railroad, who with his corps have during the summer, been surveying the North Fork of Clearwater river past the Bitter Root mountains, has been in town for the week past mustering men and preparing for the survey of the Snake river from Lewiston to Wallula, W. T., this fall. The party started below on the survey on Monday, October 30th.

We are indebted to the Lewiston *Journal* for the following particulars of the hanging of Moran at the Clearwater bridge, of which we made mention in a former issue: We are informed that J. J. Moran was hung by the neck until dead, near Jackson's bridge on the South Fork of Clearwater river, on Friday morning, the 20th ult. It seems that Mr. G. W. Bowker, who had been running the express from this place to Elk City, had purchased $2 worth of rope for Moran sometime before, and for which Moran owed him. Bowker had quit the express, but was on his way from Lewiston to Elk City, and stopped at Jackson's bridge. Bowker asked Moran for the two dollars, which Moran paid, and then, without provocation of any kind, remarked, "Now, I'll mark you," or of like purport, and immediately drew a revolver and knocked Bowker to the ground; then, taking his pocket knife, slit both of Bowker's ears, gashed his forehead and gouged and cut the divisions between the nostrils of his nose; and while doing so, he uttered words showing his brutal intent. This was done on Thursday evening, the 19th, and Moran was found hung on the following morning.

LATEST NEWS CONDENSATIONS.

Henry S. Foote, who is now seventy-two years of age, and who ought to know about as well as any man what the Democratic party is made of, has just written a letter in which he "most painfully apprehends that anything like a Democratic triumph in 1872 is an absolute impossibility."

Governor Palmer, of Illinois, is trying to cause the indictment of General Sheridan "for his share" in the matter of the shooting of Grosvenor by one of the Home Guards, organized by Sheridan after the late fire at Chicago for the protection of citizens and property. This is the meaning of a dispatch published here a few days ago to the effect that Gen. Sheridan's administration in Chicago was to be "investigated."

The largest single contract for railroad construction ever made for work in the United States was closed in New York a few days since by W. D. Mann, executive officer of the Mobile and Northwestern Railroad Company. The contract is for the entire line from Mobile to Helena, Arkansas, 750 miles, to be completed by December 31st, 1873, to commence work at once and to put 5,000 men on as rapidly as can be gathered. The iron for a large section of the road is now being made in Great Britain.

France, in her poverty, finds that she is too poor to afford the luxury of free trade, and notice has been given that the famous Cobden treaty of 1860 must terminate in 1882. By the terms of this treaty, which is terminable on a twelve month's notice, the prohibitory duties, on English and French goods respectively, were reduced to an *ad valorem* of twenty-five or thirty per cent., the duties on British manufactures were abolished, with but few exceptions, and British iron and coal were introduced into France at a great diminution of duty, and consequently of price. For this great triumph for English commerce, Mr. Cobden was offered both a baronetcy and a place in the Privy Council, each of which honors he declined. France shows no disposition to compromise, and England must prepare to lose a trade which has been in the highest degree advantageous to her.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Election in New York.

NEW YORK, Nov. 7.—The city is very quiet. Many business houses and drawshops are closed. No business will be done at any of the exchanges on Wall street.

Charles O'Conor has delivered an opinion that each person whom any candidate may designate to be present at the canvass should be assigned a place enabling him to see all the acts of the Inspectors making the canvass. One hundred young men have been designated for this duty throughout the city, and if protected in their rights, will secure fair balloting and count.

Great excitement prevailed yesterday at the headquarters of the Committee of Elections for the Committee of Seventy.

Many thousand ballots have been distributed in various Assembly districts.

A number of repeaters who were to operate today were brought in and a number of warrants procured for the arrest of the parties implicated. Counterfeit Reform tickets, posters and other election documents were brought in and measures taken to destroy their effect.

The *Tribune* says if to-day passes without trouble in certain parts of the city, those who are best able to judge of such affairs will be very much mistaken. All indications go to show that there will be serious outbreaks in the Eighteenth, Twentieth and Twenty-first wards. In the 21st ward there are also indications of trouble especially in the river districts west of Ninth avenue. Elsewhere the danger is not so threatening, though there may be outbreaks in the Sixth ward between the Dowling and Brennan factions.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 7.—Dispatches received to-day announce disasters to two San Francisco bound sugar vessels. The *Pudney Dimon* from Batavia went on a reef and went into Manilla to unload, and the *Hague* from Manila, struck a sand bank and went to Hongkong in distress where she was unloading.

Exaggerated rumors of the extent of the fire at Vallejo to-day, caused great uneasiness in San Francisco. When it was found that only one block was destroyed, and the loss did not exceed $50,000, much relief was felt.

Judge Sawyer to-day tried and convicted eight young men well known to the police as Barbary Coast rounders, on a charge of vagrancy. They will be sentenced to the county jail and requested to assist in cleaning sewers, and other public nuisements, in order to keep their systems in a healthy condition.

Capitulation of Sedan.

GENERAL DUCROT'S ACCOUNT OF THE GREAT DISASTER.

[Correspondence of the London Times.]

General Ducrot furnishes us with some more very interesting information concerning the battle and capitulation of Sedan. I will join the pith of his revelations, which, it will be remarked, are given in the third person. Arrived under the walls of Sedan, General Ducrot was entirely ignorant of its resources. He found it open to the first *coup de main*, without food, ammunition, or stores of any kind. Some of the guns had thirty rounds, others six, but the majority had no sponge. However, Generals Ducrot and Dejean posted a few soldiers on the parapets and in the trenches, but these men, demoralized and discouraged, abandoned their places as soon as they (the Generals) were out of sight. Towards half-past three o'clock, General Ducrot decided

TO CROSS THE TOWN

To put himself in communication with the Commander-in-Chief. The interior of Sedan presented an indescribable spectacle. The streets, squares, and doorways were blocked up with wagons, cannons, stores, and all the debris of the routed army. Bands of soldiers without either guns or knapsacks, ran backwards, some into houses, others into the churches, while at the gates of the town, each was the panic and crush, that several soldiers were trampled to death. The few men who had retained their coolness and energy went to their curses and accusations.

WE HAVE BEEN BETRAYED,

cried they, 'we have been sold by traitors and cowards.' It was evidently of no use to speak to such men, so General Ducrot went straight to the Prefecture, where the Emperor had arrived. Napoleon III. no longer possessed that cold, impassable figure known to all the world; the cruel emotions that were working within betrayed themselves on his countenance, which was marked with a deep sadness. As soon as he saw the General, His Majesty told him that he deeply regretted the appointment by the Minister of War, of General de Wimpfen to the command-in-chief, but that having resolved not to cross in any way the decisions taken in Paris, he had not opposed it. 'And yet,' continued the Emperor, 'your movement of retreat could have alone saved us.' Then going back to facts previous to the war, he added,

YOUR FOREBODIN

The Daily Oregonian.

WEDNESDAY MORNING, NOV. 8, 1871.

The Tune of "Centralization."

The habit of making exaggerated and inflammatory statements "for effect" has so grown upon Democratic editors and has been carried by them to such extremes, that their statements no longer produce any effect at all. The annexed from the *Oregon Herald* is not much more extravagant and absurd than most of the writing in the party organs:

> There is one question of importance so grave and weighty, that it should now override and absorb all others; and that is, whether the system of Republican Government, bequeathed to us by our Revolutionary Fathers, is to be maintained; or whether it is to be overthrown and superseded by Monarchy or Imperialism. It is folly, nay madness, to suppose that a free government, founded on the free action of the people, can be maintained or preserved, if the policy lately inaugurated and now in process of execution, be persevered in and sanctioned. All experience is valueless, all history is false, cause and effect have no connection, if the policy now pursued do not end in an Empire, unless the people speedily come to the rescue of their own liberties.

Though hundreds of journals are continually sounding this dismal gong, they do not alarm anybody. The noise, when not considered a ridiculous annoyance, has no other effect than to amuse intelligent observers of events. The talk about the danger of drifting into a Monarchy would probably be well enough if held with a lamp post, but when addressed to men who may reason calmly, it is no better than mummery. Reflecting men know that the strongest bulwark against imperialism in this country are those people who support the Republican policy of a strong and efficient popular Government. The loose ideas of the other party, which would strip Government of all legitimate authority and power, superinducing anarchy and substituting weakness for strength, would inevitably result in a despotism. The country would pass quickly from one extreme to the other, and those who are now bawling for freedom, and mean license when they cry liberty, would become the natural supporters of that despotism; while its opponents would be those who now wish to maintain the just authority and power of Republican Government, according to the general policy of the Republican party. We now have a Government strong enough to enforce its authority and protect all its citizens. Our safeguard against imperialism is in the perpetuation of such a Government. Authority, when it is permitted to run down too low is always, as the next thing, wound up too high. Had not the loose State sovereignty notions of the Democratic party been repudiated by the country, they would have led to results that would have made Imperialism certain. But that danger being past, the perpetuation of Republican Government is assured. In all probability the liberties of this country will never again be placed in such peril as they were in 1860-61, when the Union was falling to pieces and the party then in power could find no way to enforce the authority of the Government or assert the majesty of the nation.

Destruction of Forests—Climatic Effects.

The drouth of the present season, the drying up of streams and the great conflagrations that have occurred, have awakened new interest in the question of climatic changes and the effect of forests on temperature and on the rain supply. In many States hundreds of miles of dense forests have been cut away, and it is observed that in these districts, where rain twenty years ago fell abundantly, there has been latterly a gradually diminishing rainfall, and as a consequence, uncertain crops, extreme alternations of temperature and liability to destructive conflagrations.

The New York *Evening Post*, in an article discussing this subject scientifically, says: "There is now but one opinion on the subject of the downfall of the nations of the Euphrates Valley. The prolonged drouths enfeebled the physical, and therefore the moral, nature of the inhabitants. When the Romans landed in Spain, the country was inhabited by forty millions of comparatively prosperous people, the Iberians. The country was then well wooded; but, during the Roman and subsequently during the Gothic and Arab occupation, the destruction of forests was continued in a most marvelous manner, and not a tree has been replanted to this day. From forty millions, the population during nineteen hundred years dwindled to nine millions at the commencement of the present century. In Castile, especially on the plains, the traveler may not see a tree during a whole day's journey. Hail storms, drouths lasting without a drop of rain, from April to October, or sudden and destructive inundations, are the consequence. The same thing is observable in every land of southern Europe where the conditions are similar."

From this statement the *Post* proceeds to consider the subject as presented in our own country. It is undeniable, as that paper observes, that in many parts of the United States embracing wide areas, destructive drouths are becoming yearly more frequent. The frequency and length of these rainless periods are so obviously connected with the destruction of the moisture attracting forests that no one can fail to note so striking a fact.

The longer we progress indiscriminately, says the writer of the *Post's* article, "to destroy forests, without replanting a single tree, the more capricious the climate becomes from Maine to the Rio Grande. On our Pacific coast, this year, the drouth has been such that more than a quarter of the wheat crop is lost. Taking example in their distress from the Romans and the Moors of Spain, the farmers of California purpose to obtain irrigation by aqueducts through the wheat regions. The destruction of forests in California and Oregon has been on a gigantic scale during these twenty years, and the consequences begin to be felt already."

These are words of weight and wisdom. In our own State the destruction of forests, chiefly through the carelessness of those who set fires which annually cause a denudation of mountains, hill-sides and plains, must soon be productive of results similar to those witnessed and felt elsewhere. Should not this wholesale destruction be arrested in some way? "Is it not time," asks the *Post* in pointed language, that a subject of such paramount importance should be discussed in Congress and in the Legislature of every State?

Cases Not Parallel.

An objection to the manner in which the State aids in building the locks at Oregon City is based on the failure of the Legislature to provide that the State should own the locks and operate them in the interest of the people, instead of first building and then giving them to a company, according to the plan adopted. The Democratic organ supposes that it can meet this objection by the following reply:

> If it was proper for the General Government to supply the money ($15,000 a mile, besides an empire of land), to build the Union Pacific and the Central Pacific railway, why was it not provided that the General Government should own the railway and operate it in the interest of the people, instead of giving it to a company to be managed solely for their own aggrandisement?

Observe, now, how lame the above rejoinder is. One neighbor entirely disapproves the act of the General Government in granting aid to the Pacific railroads. He thinks the policy wrong and indefensible. But at the same time he admits that the act of granting State aid to the locks at Oregon City rests on the same ground. Hence by his logic the act is entirely indefensible. It is as bad as the "corrupt system of Radical subsidies," which he has so often denounced. But let it be observed that the Government did not give money to build the Pacific railroads. It permitted the companies to issue bonds and guaranteed their payment, taking a mortgage on the road for security. But nothing of this sort was done in the case of the locks at Oregon City. The State has given outright a sum of money sufficient to build the locks, and has no security or stipulation whatever for repayment. The *Herald's* answer is not good.

A telegram from Germany to New York papers announces that a German expedition has succeeded in reaching the open Polar Sea which was seen by Kane. It is announced that the sea is full of whales and that water fowl abound. At last accounts the expedition was pushing on in expectation of sailing directly past the Pole. In the success of this expedition there is a remarkable verification of Capt. Bent's theory, known as that of the "Thermometrical Gateways to the Pole," which is based on the fact that the Gulf Stream in the Atlantic and a similar stream in the Pacific are constantly discharging their warm waters into the Polar Basin, and that the true way to reach the Pole is to follow their course with the water thermometer. Where these streams meet is the open Polar Sea. The German expedition followed the Gulf Stream around by the west coast of Nova Zembla, and it appears has succeeded in finding a way through the ice drifts into the open sea beyond.

It is stated the postal telegraph proposition will be renewed at the next session of Congress. The subject has been discussed in the Cabinet, and the Postmaster General is said to be warmly in favor of the plan. It is proposed to establish stations at all postoffices whose receipts amount to $300 per year. The scheme will be opposed by the telegraph companies as heretofore. The Postmaster General will, also, it is said, again urge upon Congress the adoption of the penny postal cards. The English and Canadian plan of establishing savings banks, in connection with postoffices, has been found to work so well and is so favorably regarded by the public, that it is thought Congress will thoroughly investigate the subject, with the view of securing similar benefits to our own people.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 7.—Only $22,000 of the James King of William testimonial fund was on deposit with John Sime & Co., about $30,000 having been paid to the widow and children at different times. The bank will probably pay fifty cents on the dollar, and a lot on Mission street, worth $20,000 remains unsold.

David Meeker, Alex. Austin and Thos. Breese have been appointed a committee to canvass the city for subscriptions for the relief of distressed farmers in San Joaquin valley. It is proposed to raise $100,000, in $10 shares, and loan it out in small sums to the farmers to provide bread and meet other pressing demands. A nominal interest only being charged, and the loans to be repaid when the crops have been harvested. A company to do the business will be incorporated.

State Superintendent Hoyt, Mr. Polsom, declined the invitation of Superintendent Fitzgerald to appear before Convention and make known the principal provisions of the compulsory education law which he proposes to introduce at the next Legislature.

The Chicago Relief Committee closed its business to-day, Mayor Selby notifying the Mayor of Chicago that $100,000 had been deposited in the Bank of California subject to his order. $15,000 has also been sent—$8,000 to Wisconsin and $7,000 to Michigan.

All the parties indicted for lottery ticket dealing will be arraigned in the Municipal Court to-morrow. Those absent in the interior will be arrested on bench warrants. The sheriffs in the interior have not made returns to the warrants sent to them, and Judge Stanley proposes to bring them up for contempt of court.

Weather, clear and warm; no wind.

The races at Alameda Park commenced to-day, with a good attendance. Four horses, viz.: Pillbox, Montana Tom, Chandler and Thad. Stevens, started in the running race. Montana Tom won the first heat; the second, third and fourth heats were won by Pillbox. Time, 1:52½, 1:53, 1:51. Considerable money changed hands. Pools are selling freely for the race to-morrow.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, Nov. 7.—The leading citizens of Anaheim publish a call for Railroad Conventions, to be held Saturday, 18th inst. The meeting, it is expected, will favor a plan to be submitted to the next Legislature, for a general system of railroad building through the southern counties. The question of a division of the county will also be discussed.

SAN JOSE, Nov. 7.—A grocery store on First street was entered by burglars last night and robbed of a quantity of tobacco and silver change. Total value of the loss, $80.

NEVADA.

RENO, Nov. 7.—The inauguration of the opening of the Virginia and Truckee Railroad from this point to Steamboat Springs was celebrated this afternoon. A large number of ladies and gentlemen were present from Virginia, Gold Hill, Washoe and other places. Eating, drinking and speech-making, was the order of the day. The whole affair passed off in a most excellent style, winding up with a grand ball at Dyer's Hall, given by the citizens of Reno to the visitors from adjoining towns.

WEST SIDE ROAD.—Track laying on the west side railroad has been suspended since Friday last for want of spikes. It is hoped a quantity will arrive by the *Ajax* now en route.

If you want a Parlor Suite and Marble Table go to HUNZIKER & SCHNEIDER.

If you want a Bedroom Suite, a No. 1 Spring Mattress and a pure Curled Hair Mattress, Hunziker & Schneider's is the place to get it—corner First and Salmon streets.

A WORD TO THE WISE IS SUFFICIENT.—Be it known to the People of Portland and the surrounding country, that at the extensive clothing establishment of Rohr & Fishel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at the House and examine the large stock of Clothing and Furnishing Goods. You will soon walk away satisfied.

COUGHS AND COLDS.—Those who are suffering from Coughs, Colds, Hoarseness, Sore Throat, &c., should try "*Brown's Bronchial Troches*" a simple remedy, which is in almost every case effectual. The Troches have been tested by time, and pronounced universally superior to all other articles for the same purpose.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. Mae C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven *superior* to any method we have ever known. And that although the *first cost* may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before increasing our exposure, we give a cordial invitation to call at our homes and interview her pupils.

CITY JAIL, PORTLAND, Oregon,
June 7, 1871.

A. M. ZORTEA & Co.: I was attacked with a severe case of rheumatism. It was in my thighs, hips, knees, shoulder blade—indeed in all the joints of my body. I suffered great pain and anguish. I was attended by a regular physician, but with no effect. I was induced to try your Pain Wood Remedy, and it immediately cured me up. I consider it, from my experience, the best remedy for rheumatism known.

WEDNESDAY MORNING, NOV. 8, 1871.

CITY.

WHO IS He?—The arrest of "Wrestling Joe," the reputed father of all the Carutheirs', on the charge of perjury, created a profound sensation yesterday among those more particularly interested in the Caruthers estate. "Joe" was arrested under the name of James W. Davidson, the prosecution claiming that that is his proper name, and not Thomas, as he claims. The complainant in the case is D. B. Hannah, who alleges as follows:

"Said James W Davidson (personating, pretending and calling himself by the name of 'Joseph Thomas,' or 'Wrestling Joe') of the city of Portland did commit the crime of perjury, in that on the 15th day of September, 1871, being under oath, and under his examination as a witness in a suit then pending in the Circuit Court for the county of Multnomah, wherein C. M. Carter et al are plaintiffs, and George A. Pease et al are defendants, and before J. C. Moreland a Notary Public, being an officer duly authorized and empowered to administer oaths in the suit aforesaid, he, the said J. C. Moreland, did administer the oath aforesaid to James W. Davidson, and thereupon the said James W. Davidson did wilfully testify falsely, in this that he did swear as follows to an interrogatory then and there propounded to him, to wit: "Repeat your own name in full," in that he did answer, "Joseph Thomas." The answer and matter so sworn to by him being material to the issue of fact then joined, and the testimony so given by him being rendered under an oath authorized by law, and being wilfully and corruptly false." Upon this complaint a warrant was issued and Davidson or Thomas, as the case may be, was taken before Judge Denny. The prisoner was arraigned, and pleaded "not guilty" to the charge. The matter was then continued until this morning at ten o'clock. The accused was released on $1,000 bonds; R. J. Ladd and A. P. Dennison qualifying as sureties. The examination, it is expected, will occupy the attention of the Court for several days. A host of witnesses have been summoned on either side, and the affair promises to furnish a vast amount of sensational matter.

ST. HELENS MATTERS.—Our St. Helens correspondent, under date of October 7th, furnishes the following:

"There is but little transpiring here to disturb our equanimity. On last Sabbath evening our first Sabbath school concert came off with great eclat, a large number of scholars and a goodly number of our citizens were in attendance. A great amount of interest was manifested; all enjoyed the evening and went away well pleased with the performance, and none more so than our beloved minister, Rev. Mr. Winton, who is a live worker in the cause of Christianity, and the prime mover in this exhibition. Will say this people, and particularly the parents, feel thankful that his lines have fallen amongst them.

"The success of the Good Templars here is almost without a parallel in so small a place. They have been in operation but a short time and now number about forty members, with as many applicants as they can well attend to. A few more days and they will have no occasion for secrecy, as all will be Good Templars.

"The mill company have stopped sawing, and are pulling down a portion of their machinery to put up a pair of more boilers, which are in course of construction at the Oregon Iron Works, which will enable them to do a great deal more work with the same labor."

ACKNOWLEDGMENT.—The following acknowledgment of the receipt of Portland's generous donation of $10,000 to the Chicago Relief Fund has been received:

CHICAGO, October 25, 1871.

HENRY FAILING, Esq., *President First National Bank, Treasurer, Portland, Oregon—Dear Sir:* From Ira Holmes, Esq., and through our Hon. Mayor, who was advised by Mayor Wasserman of your city, we learn of the generous donation of $10,340, forwarded by you for the benefit of our unfortunate and homeless citizens. In the name of our unhappy ones, we heartily thank you, for this noble manifestation of sympathy and liberal charity; and would beg of you to convey to all parties who may be concerned, assurances of our unfeigned sympathy.

The transfer of this handsome contribution (from Portland to prostrate Chicago) to the hands of this society insures for it a judicious distribution, such as will economically accomplish the most real good. Yours, respectfully,

GEO. M. PULLMAN,
Treas. Chicago Relief and Aid Society.

LARCENY.—A man giving his name as Charles McKewan was arrested on Monday night on the charge of petit larceny. The evidence before the Police Judge went to show that McKewan went into the Fountain Saloon, a pretty waiter girl establishment on Front street, where he treated one of the dispensers of foaming beverages to a drink, offering in payment a twenty dollar gold piece. The proprietor being absent, the girl was unable to change it, and, accordingly, returned the piece to McKewan. Soon after the proprietor returned, and upon being informed that the defendant wanted change for a twenty, gave him the desired change, but failed to receive the twenty dollars, the defendant claiming that the woman had not returned it to him. The evidence indicated the reverse of this, and Mr. McKewan was adjudged to pay a fine of $25 and costs, amounting to over $40.

A MAN DESERTS HIS FAMILY.—A man well known in this city, and who has for some time past been engaged as a drayman, on Monday deserted his family under very peculiar circumstances. During their absence he entered the house and took therefrom every article of furniture, leaving nothing but a blanket and bed spread. The woman, upon returning home and finding the house stripped of everything, made instant search for her husband, but up to this time without success. The furniture, we understand, has been traced to a second-hand store, where the fleeing husband sold it for a trifle. The family is in a destitute condition.

ANOTHER ARREST.—Green Davidson was arrested last night on the charge of perjury. The arrest of Davidson grows out of his testimony before a Notary Public in relation the identity of "Wrestling Joe." The prosecution claim that "Joe" is Davidson's father, and that the accused is swearing to the contrary committed perjury.

THE NEW HOTEL.—Workmen were engaged yesterday in erecting a pile-driver at the lower end of Front street, opposite the office of the Oregon and California Railroad, preparatory to commencing the work of driving piles for the foundation of the new hotel.

SHEEP.—A flock of sheep, numbering fifteen hundred, and belonging to a Mr. Murray of Pierce county, Washington Territory, were shipped, a part on the *Mary Bell* and the remainder on a scow, en route for Nisqually Plains, Pierce county.

INSANE.—An insane man from Sauvie's Island was examined before the County Judge yesterday and ordered to the Asylum. He refused to give his name, and was so violent that it became necessary to put him in a straight jacket.

TEMPERANCE LECTURE.—The Rev. T. L. Eliot has accepted an invitation from the citizens of Washington county to deliver an address on the subject of Temperance, at Forest Grove, on Saturday next, at one o'clock P. M.

FOR THE PENITENTIARY.—Mr. Rogers of Baker county, having in charge a couple of convicts sentenced at the late term of the Circuit Court for that county to the Penitentiary, arrived in the city last night en route for Salem.

INSANE PATIENT.—Sheriff Bird of Wasco county, having in custody Jack Ryan, an insane patient, arrived in the city last night. Ryan formerly resided here, but of late years has made his home at the Dalles.

CITY JAIL.—At last some progress is being made toward the erection of the new city jail. A gang of laborers were engaged yesterday in grading the lot preparatory to laying the foundation.

PERSONAL.—L. C. Millard of this city arrived overland at San Francisco yesterday. Colonel Parish of this city leaves San Francisco for Portland to day via Sacramento and Jacksonville.

HOUR OF SAILING.—The *Gussie Telfair* for Victoria, San Juan, Nanaimo and Sitka, sails this evening at five o'clock instead of seven, as heretofore advertised.

ARRIVAL OF THE GEORGE S. WRIGHT.—The ship *George S. Wright*, fifteen days from Sitka, arrived in port last night at 11:30. She brings no passengers.

RAILROAD MEETING.

NOT FOR MONEY, BUT EXPRESSION OF OPINION.

WHEREAS, The construction of a railroad from Portland by way of Snake river to Salt Lake is an enterprise of the utmost importance, and cannot well be accomplished without aid from the National Government; and impressed with the belief that a united expression by the people in this behalf will best insure a favorable consideration by Congress; it

THEREFORE, We, the undersigned citizens of Portland, respectfully and earnestly call upon our fellow citizens to assemble at the court house on next Friday evening, the 10th inst., at 7½ o'clock, for the purpose of memorializing Congress upon this all-important subject.

COURT PROCEEDINGS.

U. S. DISTRICT COURT—DEADY, J.—Grand Jury empannelled. O. Risley appointed foreman. L. E. Pratt, F. R. Smith, J. F. Backenstos, Martin Luper, E. McFarlin, B. R. Snipes, John Kelly, John Cogswell, M. P. Martin, A. P. Caldwell, S. King, E. L. Dolashmutt, James Johnson, James B. Wolon, J. E. Hoi, J. W. Schram, Philo Callender, Hiram Smith, W. Simmons, J. Blumauer, A. J. Hufer.

Joseph Holman, a Grand Juror, was excused for the term.

William C. McKay vs James A. Campbell; action for damages for refusing plaintiff's vote; judgment for defendant in bar of action and for costs.

In Re, R. Doty et al in bankruptcy; petition for an order allowing assignee to compromise with R. A. Ray as to property purchased of one of the bankrupts. Order allowed.

COUNTY COURT—HAMILTON, J.—In the matter of the last will and testament of Patrick Quinn, deceased; motion to admit will to probate, taken under advisement.

S. J. McCormick, as guardian of the Raleigh heirs, filed his petition.

J. G. Carmon, as guardian of Frank E. Northrop, filed his annual accounts.

In the estate of Wm. R. Fisk, deceased, the administratrix presented her final accounts, the administration was closed, and sureties exonerated from all liabilities.

In the estate of Joseph Long, ordered that citation issue to all persons interested to appear before the Court on the first Tuesday of January, 1872, and show cause why an order for sale of real estate should not be made.

LOCAL BREVITIES.

Two hundred and thirty-three cases are docketed for trial at the next term of the Circuit Court. One hundred and one are law and 132 equity cases.

The Skating Rink is to be heated by four large stoves.

T. L. Kiernan, of East Portland, is the happy possessor of a sun-dial made in Ireland during the reign of Queen Elizabeth.

A cotemporary, who has been interviewing the chimney sweep, states that that gentleman is forced to leave us, owing to the want of sufficient support. Let a collection be taken up.

The M. E. Church at Kalama has recently purchased a Bordett organ.

A couple of roughs brutally beat and ejected a couple of Chinamen from the cabin of the Stark street ferry.

The local of a cotemporary, who is fond of sausage, while eating his favorite dish yesterday extracted from it the "incisor tooth" of a full grown dog.

AMUSEMENTS.

ACROSS THE CONTINENT.—Bachelder's panorama of a "Tour Across the Continent" was exhibited last night at Oro Fino Theator to a fair house. The views are, in the main, truthful, and in an artistic point, well painted. The scenery along the line of the Pacific railroad is very good, and to those who have never visited that section of the country, is well worth seeing. On the whole, the panorama is the best that has ever been on exhibition in this city. During the intermission a number of well trained canary birds were introduced, and performed a number of surprising feats. The panorama will be exhibited again this evening, and to those who desire to spend an evening with the grand and romantic scenery of the country, we would advise to attend.

CONCERT.—A grand vocal concert will be given this evening at Odd Fellow's Hall, East Portland. Some of the best musical talent in this city and East Portland have volunteered their services. The proceeds of the concert are to be applied toward the purchase of an organ for the M. E. Church. For the convenience of those attending from this city, the ferry boat will make several trips after the concert is over.

BUSINESS NOTICES.

NEW METHOD OF MUSICAL INSTRUCTION.—Mrs. M. C. White has now been some months in this city engaged as an instructor of music upon a new plan. She has already had a considerable number of pupils who have gone through with her first course of twelve lessons, and some who have taken a full course of twenty-four. There are, therefore, many who know from actual demonstration the value of her new method. We have conversed with several of these, parents or intimate friends of pupils, and in one case with an intelligent lady pupil, herself a teacher under the old methods. The latter speaks enthusiastically of the merits of Mrs. White's method, and says that before receiving instruction she could not have believed the science capable of such simplification, nor that so thorough a knowledge of it could be imparted in so brief a course. She pronounces the method "a perfect analysis of music." Several of the parents of pupils have spoken in similar terms of the method, and have expressed to us their surprise and gratification at the progress made by their children. A testimonial from some of them will be found in another place in this paper. Mrs. White refers to any or all of her pupils in this city for further information.

AUCTION SALE OF BOOTS AND SHOES.—The attention of the trade is directed to the special credit sale of boots and shoes by A. B. Richardson, which takes place this morning at 10 o'clock. See advertisement.

REMOVAL.—Isaac Barman, dealer in clothing, etc., has removed from the building formerly occupied by him, near the American Exchange, to the brick store corner of Front and Washington streets.

The fire still agitating. Continued destruction of property? Wares at a sacrifice! Michael Reese loses to the extent of $250,000 and still flourishes. The loss to Isaac Barman in consequence of the increased rates of insurance obliged him to make a move, which move was from the old wooden concern lately occupied by him to the commodious and attractive brick store corner of Washington and Front streets, where the saving in insurance will redound to the benefit of his patrons. Barman's enterprise and amiability will entitle him to the public favor which he has so long enjoyed. Stored as his establishment is, with the best that Portland boasts, and continually receiving heavy invoices, he may be deservedly styled the Prince of Clothiers—and though Prince he be, the poor will become rich and the rich richer by making their purchases at his low-priced one price store.

The Martyrs of Neglect.

It is not too much to say that tens of thousands are now suffering from biliousness, indigestion, constipation, periodical fevers, general debility, and nervous affections who might be restored to perfect health within a month or less by the use of Hostetter's Stomach Bitters. The multitudes who have been cured of these and other ailments by the use of this well known specific are always ready to testify to its virtue as a preventive and a remedy. They are spread over the whole country; they are eager to praise and recommend it, and yet, notwithstanding its vast popularity, there are many invalids, many who are continually exposed to the epidemical diseases, against which it is a sure protection, who, either through indifference or incredulity neglect to seize the opportunity to cure and means of prevention, which they have only to reach out their hands to obtain. This is strange; it is one of the anomalies of human nature which it is impossible to account for or explain. It is, however, quite certain that every day the number of these Martyrs of Neglect is diminishing. This is proved by the statistics of the sales of the great remedy. During the present fall the demand for it has increased beyond all precedent, and it seems as if in the end the entire community would realize the important fact, that when all other medicines prescribed for the above complaints fail, it can and does effect a cure. As a protection against the diseases most common at this season, there is nothing comparable with it.

TO OUR PATRONS AND THE PUBLIC GENERALLY desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a graded slope from the River back to SEVENTEENTH STREET, there being scarcely any Bluff in the entire tract but what is

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F Street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE!

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—10 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Vedder.

☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. PERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS $17,000,000!
ISSUED 9,025 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1846. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful experiment in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately, as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used as any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many affecting judgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such cases. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!
IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH, IN SOUNDNESS, CHEAPNESS, PROMPTNESS AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS ISSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantage by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and most *reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

THE FALL AND WINTER

FINANCE AND COMMERCE.

TUESDAY EVENING, Nov. 7, 1871.

Gold at New York unchanged—112.

Portland Legal Tender quotations, 68½c buying, and 69¼c selling.

On the 25th ult. the foreign quotations of U. S. bonds were as follows:

LONDON—American securities opened quiet. Five-twenty bonds of 1862, 90¾; 1865's, 90¾; 1867's, 92¾; 10-40's, 89¾.

FRANKFORT—United States 5-20 bonds of 1862, quiet and firm at 95½.

There followed just after the great fire at Chicago, and continuing for two or three weeks, a considerable pressure upon the money market of the whole country. Discussing this matter on the 25th ult., the N. Y. *Journal of Commerce* said: "The pressure upon the money market is working no considerable mischief, and very much visible good. There is nothing like such a pressure to bring to naught worthless projects, and to cut off from the body financial dried-up, decayed, or useless limbs. All legitimate business will bear this turn of the screw, adapt itself to it, and grow healthier thereby."

This opinion seems to have been justified by the events of the last ten days. The reports from all quarters are of greater ease in the money market, confidence in business circles is growing stronger, gold has become steady though not so low as at one time, and matters generally, financial and commercial, are setting into the old grooves.

The coinage at the San Francisco Branch Mint for October embraced $20,000 Quarter Eagles, $20,000 Half Eagles, $50,000 Eagles, $1,500,000 Double Eagles, $14,000 Dimes, and $35,000 in Half Dollars—making a grand total of $1,689,000.

The Wheat market is quiet and prices dropping. The Liverpool quotation to-day is only 12s 11d—a decline of 3d since the last previous dispatch. It will be seen by our dispatches from San Francisco that prices have fallen off in that market about 5c per cental. In this market there has been nothing doing worth mention. Millers are offering $1 20@1 25 per bushel; jobbers and shippers are holding off at $2 25 per cental, and under the advices from Liverpool, $2 20@2 25 per cental for shipping grades is as high as the market can be quoted.

The merchandise market is more than ordinarily active for the season, owing partly to the prospective withdrawal of the O. S. N. Co.'s steamers from the upper Columbia trade Dec. 1st. After that date boats will not run above Celilo on account of low water. All goods intended for the interior must be sent up the river, therefore, during the present month, and this necessity has brought upon the wharves large orders for goods to supply the distant interior during the ensuing winter. Dealers find their hands full to work off these supplies in time and almost also to the usual demands from other directions. Another reason for the more than ordinary activity in the wholesale and jobbing trade is that the railroad now supplies the greater number of Willamet valley customers, just as they may have need for goods, whereas, formerly goods were shipped mostly by water, either much earlier or somewhat later, on account of very low water in November. Usually, there was a lull in trade during October and November, and then a spirited spurt of business early in December. Goods were purchased in comparatively larger quantities at longer intervals than will hereafter be the rule. Merchants being able to get their goods quickly, and at one season as well as another, they will hereafter order in smaller lots and oftener. Thus trade will be much more evenly distributed through the year, to the mutual advantage of both seller and buyer. The latter will have to pay less interest on borrowed money or bills here, and the former will, as a rule, receive his money sooner for goods sold. The advantages of ready and quick transportation, in this respect as well as in all others, will be more plainly felt as the railroad system of the State shall progress in its development. In a short time the O. & C. Railroad will reach the Umpqua valley which a new demand will come upon our market for goods to supply that valley. We do not think it unreasonable to predict that in a few months, the dealers of this city will be filling orders by way of the railroad to Canyonville and thence by wagon to the Rogue river valley and even to points near or on the coast, now supplied directly from San Francisco.

The steamship *Alex* will be due from San Francisco to-morrow evening.

The *Gussie Telfair* is advertised to sail for Sitka and northern way ports at 5 P. M. to-morrow.

The bark *Almatia* is receiving her cargo rapidly, and will have quick dispatch for San Francisco.

The bark *Garibaldi* is within a few days of being ready to go to sea, bound for Hong Kong.

The *George S. Wright* is expected to arrive from Sitka this evening. She passed San Juan on Sunday.

The San Francisco *Bulletin* of the 31st ult. furnishes the following interesting statistics of the trade with China and Japan, which shows an increase in the aggregate exports of goods and produce, and a large decrease of coin exports, thus exhibiting a gratifying tendency in our favor:

The monthly merchandise exports from San Francisco to China and Japan since January 1st have been as follows, to which are appended the totals for the same time in two previous years:

1871.	China.	Japan.	Total.
January	$241,023	$15,950	$256,973
February	312,117	7,918	320,035
March	327,537	4,000	331,537
April	177,529	60,000	237,529
May	231,331	62,913	294,244
June	250,852	83,580	330,052
July	270,317		270,317
September	376,205	110,190	486,395
October	68,587	7,544	76,131
Totals	$1,502,998	$426,079	$1,929,077
Same time in 1870	906,853	413,535	1,414,388
Same time in 1869	1,218,160	454,452	1,672,612

The Specie for this year show a gratifying increase over the two previous years, which is in part by the heavy shipments of stores for the Steamship Company and the Government. Flour, of course, forms the principal items in our Occidental exports to China and Japan, the months by which, of which have been as follows, compared with the same time in previous years:

	China.	Japan.

Same time in 1869	128,719	8,347

The annual value of the Flour shipped hence to China and Japan since January 1st is over $700,000, or 35 per cent. of our total exports to both countries. The same comparison of treasure exports is given in the annexed table:

1871.	China.	Japan.	Total.
January	$40,717		$40,717
February	85,090	$61,451	146,527
March	97,539	79,240	97,339
April	96,307	43,599	139,135
May	96,307	41,765	137,123
June	102,703	38,219	241,922
July	121,165	29,305	150,515
August	455,647	60,708	516,353
Sept	581,939	167,966	749,895
Totals	$1,697,705	$525,225	$3,033,990
Same time in 1870	4,582,490	2,276,080	6,950,570
Same time in 1869	4,333,351	2,448,071	7,281,422

The treasure shipment this year has been unusually light; the $2,927,000 less than last year and $4,218,000 less than in 1869.

Real Estate Transactions.

Produce Market.

WHEAT—Holders have been disposed for two or three days to concede somewhat in prices; under the news of to-day from Liverpool, the market will still more decidedly favor the buyer. We quote milling grades $1 25 per bushel; and shipping $2 20@2 25 per cental; both figures largely nominal in consequence of the uncertainty hanging over future prospects.

FLOUR—Stocks of all grades are rather limited, but the mills are generally running and large shipments from of the season may be expected in a few days. The demand for flour for the Indian Reservations is in excess of the supply, at $5 50@6 00, according to quality. Extras are generally available as before at $7 50; good country brands, $6 00@7 25.

PROVISIONS—We quote Hams 17@18c; sugar cured, 20c; Shoulders, very scarce at 13½c. Lard, in tins, 16@16c; in kegs, 14½c. Eggs are scarce and still advancing, we quote 40@50c. Butter, 45@50c, according to quality.

We pay too much for our butter and eggs. Ask any prudent Housekeeper what it costs to keep her family in butter and in eggs and she will answer, "We pay too much for them." We not only consume all the best of butter within the State, but import large quantities from Eastern markets. Specially is this the case with butter, and yet there is no business in this State which offers greater inducements to farmers who have but little capital. The above is from a San Francisco paper, but it suits admirably for Oregon as well as for California. So when the same paper adds that "our farmers are too much taken up with the idea of raising large crops of wheat and look upon dairy and other products as 'small potatoes'" we quite agree again. Our people must learn that no real prosperity can be expected from the pursuit of a single industry.
